

Funding the Transition to a Low-Carbon Economy

\$200 billion by 2030

Our Commitment

- More than \$100 billion to promote clean technology and renewable energy
- Remainder to sustainable projects and businesses
- Collaboration with peers on a common approach to sustainable finance
- Leadership in accounting, reporting and disclosures

History of Environmental Focus

- Funding \$30 million clean-tech start up program in partnership with U.S. Department of Energy
- \$12 billion invested in sustainable businesses in 2017
- Projects owned by Wells Fargo generated > 9% of all U.S. wind and solar energy in 2016
- 100% of our global electricity needs met with renewable energy since 2017
- Met sustainable finance goal of \$30 billion by 2020 in 2015 – five years early
- Reduced carbon footprint 45% from a 2008 baseline, ahead of 2020 target date
